

26th STC India Pre-Summit Workshop

Thursday, 21st November 2024

Venue: OpenText, 6th Floor, Olympia Building, Bagmane Tech Park,
Byrasandra, Sir CV Raman Nagar, Bengaluru, Karnataka 560093.

Registration & Networking [9:00AM to 10:00AM]

Morning Session

Track 1
[10:00AM to 1:00PM]

Awaken the prompt engineer within you by Anant Sabane

Session Takeaways:

The participants will gain the following skills and knowledge:

1. A foundational understanding of prompt engineering principles: Attendees will develop an understanding of the key concepts and techniques involved in prompt engineering.
2. Practical skills in crafting effective prompts: Participants will be able to construct prompts that elicit desired outcomes from AI models, such as GPT-4.
3. Hands-on experience with AI tools: Attendees will gain practical experience using AI tools to generate content and experiment with different prompt types.
4. Confidence in applying prompt engineering techniques: Participants will develop the confidence to effectively use prompt engineering techniques in their technical writing tasks.
5. Enhanced productivity: By applying prompt engineering, participants can streamline their content creation process and increase their overall productivity.

Track 2
[10:00AM to 1:00PM]

Script to Screen: Creating Videos with GenAI by Manu Samuel and Silva Shivanandan (Cisco)

Session Takeaways:

The participants in this workshop will learn about how to create high-quality videos using GenAI, even with limited expertise and resources. They will be guided through the process of leveraging GenAI technology to streamline video production. Additionally, attendees will learn about the key features and benefits of various GenAI tools through an in-depth comparison, helping them to choose the right tool for their specific needs and maximize their efficiency and effectiveness in video creation.

Afternoon Session

Track 1
[2:00PM to 5:00PM]

Igniting Leadership: A Workshop for First-Time & Aspiring Managers by Vidhya V Kumar and Mugdha Bapat (Rocket Software)

Session Takeaways:

The participants will learn about Leadership Fundamentals: a solid understanding of the core principles of management, including how to build trust, foster collaboration, and lead with integrity.

Track 2
[2:00PM to 5:00PM]

From Concept to Canvas: A Hands-On Workshop in Creating Impactful Graphics for Documentation by Swati Malhotra

Session Takeaways:

The participants will be equipped with the knowledge and inspiration to elevate their documentation through the strategic use of visuals, ultimately leading to more effective and impactful communication. Attendees will have the confidence and skills to create their graphics, elevating the quality and effectiveness of their documentation.
